Julian, Anita, Puteri and Kayanat

What is GoodWeave?

- Network of organizations
- Business-minded experts
- Mission: End child, forced, and bonded labour in global supply chains.

Strategies

GoodWeave Standard(s)

- Eliminate child labor specifically in the handmade rug industry

- Facilitating transparent monitoring in regards to the work conditions

  within rug factories

- Henceforth child labor will be reduced because of the consistent

  monitoring to ensure that children are not being used for working

The GoodWeave Label

Success

- 3,936 children directly freed from exploitation
- 23,996 children enrolled in schools
- 59,152 workers covered under the GoodWeave system.
- Partnership with 350 companies worldwide.

Limitations

- Only children that are forced to work in rug producing factories get treated and monitored

- Henceforth, we can conclude that because only these children are put to their focus, children that are labored in different types of companies will not get the treatment that these children receive
